Coimbatore, Tamil Nadu, India

SUMMARY

I am an energetic and ambitious Computer Science and Engineering student passionate about innovation. I possess proven skills in coding, problem-solving, and collaborative teamwork, with proficiency in multiple technologies such as Java, JavaScript, React, and MySQL. I strive to leverage my skills in real-world projects and contribute to meaningful outcomes

EXPERIENCE

Web Developer

Nobel Software Solutions

12/2023 - 01/2024 Coimbatore, Tamil Nadu, India

IT / Computers - Software

- Developed responsive web pages using HTML, CSS, and JavaScript, ensuring optimal user experience across various devices and screen sizes
- Collaborated with senior developers to integrate front-end interfaces with back-end functionalities, contributing to the seamless functionality of the software products

EDUCATION

B.E. - Computer Science & Engineering

Sri Krishna College of Technology

08/2022 - 05/2026 Coimbatore, Tamil Nadu, India

12th

Kurinji Senior Secondary School, Namakkal

06/2018 - 05/2019 Namakkal, Tamil Nadu, India

10th

Kurinji Senior Secondary School, Namakkal

06/2016 - 05/2017 Namakkal, Tamil Nadu, India

KEY ACHIEVEMENTS

Best Backend Award

Earned 'Best Backend Award' for outstanding performance in backend development

PROJECTS

AirJio

07/2024 - 08/2024

Development of a platform for mobile recharges

- Leveraged advanced technologies including React Vite, PostgreSQL, and Springboot to architect and develop the AirJio platform
- Implemented seamless integration of backend systems with React Vite frontend, optimizing performance and user experience
- Engineered robust security measures using Springboot, ensuring data integrity and user privacy on the AirJio platform
- Employed PostgreSQL to design a scalable and efficient database system, facilitating quick and reliable mobile recharges on AirJio

Perfume Palette

11/2023 - 12/2023

Creation of a personalized fragrance studio

- Engaged in a Full Stack Project utilizing Java, employing technologies such as React JS, MySQL, and Springboot
- Orchestrated a process re-engineering initiative aimed at optimizing and consolidating end-to-end service processes
- Successfully restructured communication flow among 10 departments, resulting in a notable 75% reduction in paperwork
- Integrated React JS frontend with MySQL backend for Perfume Palette, ensuring seamless user experience
